

全自动送线架 >

Automatic Wire Feeding Machine (Decoiler)

▶ 产品介绍 Description

全自动送线架为数控弹簧机配套使用，在运行过程中会自动调节送线速度，使弹簧机和送线架的送线速度保持同步。当线材缠线时会自动停机并报警。

Fully automatic wire feeding machine is applied with the CNC spring machine. The wire feeding speed can be automatically adjusted during working, which can make the speed of spring making machine and wire feeding machine synchronize, The machine will alarm and stop working automatically in case of faults, such as the kinking of wire, It is stable in performance and durable.
